The International Workshop on Intelligent Systems (IWIS 2020) will be held in University of Ulsan, Republic of Korea, from July 22<sup>th</sup> – 24<sup>th</sup>, 2020. The Workshop offers a unique and interesting platform for scientists, engineers and practitioners throughout the world to present and share their recent research and innovative ideas in intelligent systems and their applications.

## About IWIS

Rapid changes in information technologies have led to a boost in the strength and efficiency of human activity. These technologies have an influence on every area of human life, including education, science, business, leisure time, entertainment, government, and health care. Human life is greatly dependent on these systems' efficiency and performance. The IWIS has been prepared as a platform for exchanging ideas, knowledge, skills and experiences in interactions between man and these systems. The IWIS series has become one of the most important international workshop in the field of intelligent systems.

## Topic of Interests
