The International Workshop on Intelligent Systems (IWIS 2023) will be held in International Hall in University of Ulsan, Ulsan, Republic of Korea, from Aug 9th – 11th, 2023. The Workshop offers a unique and interesting platform for scientists, engineers and practitioners throughout the world to present and share their recent research and innovative ideas in intelligent systems and their applications.

About IWIS
Rapid changes in information technologies have led to a boost in the strength and efficiency of human activity. These technologies have an influence on every area of human life, including education, science, business, leisure time, entertainment, government, and health care. Human life is greatly dependent on these systems’ efficiency and performance. The IWIS has been prepared as a platform for exchanging ideas, knowledge, skills, and experiences in interactions between man and these systems. The IWIS series has become one of the most important international workshop in the field of intelligent systems.

Topic of Interests

Special Session
Aside aforementioned topics, special sessions are also forecasted. We cordially invite you to organize special sessions. Details can be found at the official conference website.

Tutorials
A Call for Tutorials proposals can be found at conference website.

Proceedings
All papers presented during the conference will be submitted to IEEE Xplore.

Important Dates
- Special Session Proposal: April 15, 2023
- Full paper Submission Due: May 15, 2023
- Acceptance Notification: June 15, 2023
- Early Bird Registration Due: July 10, 2023
- Final Paper Submission Due: July 10, 2023
- Conference: Aug 9-11, 2023
